

## The Founder's Heart!

*"The Inspiration Behind My Motivation!"*

*O. V. Latin*  
*1/30/21 - 11/25/03*

*Louella Latin*  
*8/7/23 - 5/16/99*

*As we approach year end of Two Thousand Twenty-One, let us take some most needed time to reflect on our vast accomplishments as well as our varied failures. 2021 surprised us with many setbacks and situations we may or may not have been ready to face head on and conquer.*

*It is important for your future success to assess what worked well, what could use some tweaking and yes, even what needs to be eradicated from our personal and professional lives that has caused not-yet realized visions to become real and manifested for others to see! We are just 24 days away from crossing into 2022!*

*Ask yourself, "What do I want to accomplish in 2022 that will initiate creative change that impacts the lives of others and leaves a legacy for generations to come?"*

*That is the reason why OVL Foundation was birthed and now exists today. I clearly had no idea of the significant impact and imprint that would be etched in my heart to push and inspire me to continue the community work I witnessed in my life! My parents, O.V. & Louella demonstrated continuous acts of kindness and generosity!*

*I am totally ecstatic to share with you that, even during the Corona Virus, OVL Foundation and its Board of Directors, along with ALB Ministry partners, and a few volunteers, pushed through protocols, policies and procedures and made a difference in the lives of unsheltered people living in homeless encampments in the Berkeley, CA communities.*

*From the Board of Directors to each of you, Happy Holidays to you. And a very prosperous New Year!*

*Signoff,  
Anita P. Latin
